**COMMERCIAL AND MONEY MATTERS.**  
For Sales of Stocks, &c. see Fourth Page.

MONDAY, April 3—P.M.

The Stock market was buoyant to day but the transactions were not extensive. There was a good demand for Treasury Notes and Government stocks and the quantity in the market was moderate. Sales Treasury Notes were made at 14 per cent. and 11 on time sales option. No Government were offered. Harolds on the sold at a high figure, and there are appearances of a corner in this stock.

In Bills there is not much doing and the rates are heavy. Sterling ranges from \$5 to 10. Leadingsavers 3½ and gold bills can be had at 1½ per cent. France is 5½ nominally.

There is less movement in freights, partly on account of the vessels being mostly full. An engagement of 10,000 bushels Corn was made by Liverpool at 15½ and some Cotton at 15. Heavy freight was taken at 15½.

Money is plenty in Treasury Notes and Bank stocks at 7 per cent. Paper goes at 16½ per cent. On the whole, the market is quiet and this kind of paper is scarce. There is every indication that money will be 10 per cent. on Treasury Notes in May unless we have a few new issues from Europe.

The French houses which have retired their April paper are Messrs. D'Ascanio & More, Pittott & Le Barbe, Moret & Bertrand, Beaufort & Léon, and Fox & Livingston. The course adopted by these houses has had a very favorable influence upon the street.

The earnings of the Long Island Railroad for the month of March were as follows:

From passengers and mail, \$14,795.55.  
From express, \$9,231.10.  
The receipts for March, 1917, were, 20,120.65.  
Increase equal to 15 per cent.

The receipts at the Custom House last week were \$478,000 against \$367,000 during the week previous. The arrival of numerous packets to-day will carry the receipts of this week to a large amount.

The auction sales of last week were generally well attended, and in some cases better prices were obtained. The sale of 6,000 pieces of cloths worth \$200,000, from the Empire, Clayville and Washington mills, was well attended. Mr. Hollister, agent for the Companies, stated that the cloths had all been produced within the last 25 days and would be sold to the highest bidder; and whatever the loss might be the Companies were prepared to stand it, as they were determined to meet the market and test the question whether merchants were prepared to sustain our manufactures or depend on foreign supplies. As these cloths are well made in our mills and published at 10½ per cent. on the cost of raw materials, the clothiers in this and from neighboring markets, were present. The sale was spirited, and the whole sold by Mr. Sprague, agent for the Empire, Clayville and Washington mills, at private sale, and lower than they can be produced at a private sale, and lower than they can be produced at the present price of wool, were satisfactory.

The interest on the Public Stocks of this City, due on the 1st of May, next, will be paid on that day by Mr. Lawrence, the City Chamberlain, at the Bank of the State of New York.

The interest on the Morris Canal loan is punctually paid.

The Collector of Philadelphia has furnished the following comparative statement of the amount of cash dues received for:

March, \$27,456.61 \$247,991.50  
Previous months, 449,229.50 665,435.45  
Total, \$6,668.20 \$247,991.50

Excess in favor of 1916, \$6,668.20.

The receipt at the Custom House last week was \$478,000 against \$367,000 during the week previous.

The arrival of numerous packets to-day will carry the receipts of this week to a large amount.

The auction sales of last week were generally well attended, and in some cases better prices were obtained.

At Buffalo there is much stringency in the Money market, which is now in extreme operation. Much difficulty is experienced in negotiating drafts on New York, and in some instances holders of flour, sugar, and wheat have been compelled to sell at a heavy want of money, have been compelled to sell at a rate of eighteen cents per bushel less than the fair market.

The new Canadian Tariff Bill has been proposed and will come into operation on the 5th of April.

The report of the Committee of the Pennsylvania Legislature in regard to the Girard Bank was that the bank was doing business under its charter and in accordance with the laws of the Commonwealth. The report was accepted unanimously.

New Orleans no important change has taken place in financial matters. The money market continues quite easy, and undoubted signatures can readily be negotiated at 8½ per cent. per annum. The Foreign Bill market has remained in nearly the same state previously noticed. Sterling, 10½ to 11½; France, 10½ to 11½; but since the price of cotton has gone up 100 dollars, less than at private sale, and lower than they can be produced at the present price of wool, were satisfactory.
